### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or render obvious a method comprising all the elements and steps structurally and functionally claimed and further providing the steps of applying a multiple component adhesive to a tissue and suctioning/removing materials by suctioning at the site of the application with an earlier date than the priority of 06/23/1989 granted in the petition dated 08/10/04. Further, the examiner is interpreting the multiple component adhesive as one that is disclosed in the specification, which is fibrinogen or fibrin from blood plasma and thrombin mixture with calcium.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
